FLOHAM CAMPUS

CAREERS BEGIN WITH AN INTEREST!

At FDU we develop your interest by exposing you to a variety of courses in contemporary graphic design, getting you acquainted with its history, the modern tools and techniques, foundation concepts as well as ever-evolving ideas and trends. You will create a variety of projects to build your design portfolio. We will challenge your design sensibility, know-how, and conceptual development through practice in diverse contexts, critiques, internships, and, of course, more practice...always with the goal of making you the best designer you can be—knowledgeable, progressive and adventurous.
